Dear Richard,

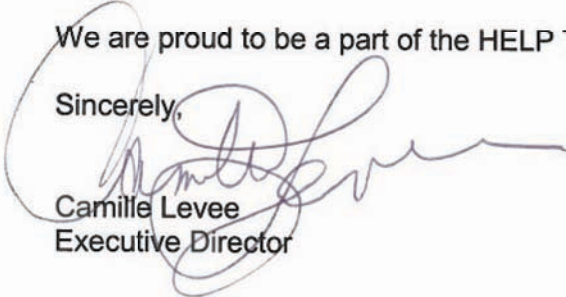

Thank you so much for the opportunity to participate with our local community through the HELP Network rewards card.

As a small community benefit non profit organization, Glendale Healthy Kids is always seeking ways to raise funds for our mission without constantly targeting the same audience multiple times. The HELP card is a win-win solution, providing funds for our program while rewarding card holders for their continued use of the card at our many local merchants.

By joining businesses, consumers and non-profits together, we can build a stronger, healthier, more educated community----and we at GHK can Help the most vulnerable and valuable of our community: our kids.

We are proud to be a part of the HELP Team!

Sincerely,

  
Camille Levee  
Executive Director
